RAJESH S
Software Developer

Dubai, UAE | +971 55 586 2143 | srajeshs021@gmail.com

Portfolio: rajeshsamysundaram.vercel.app | **LinkedIn:** linkedin.com/in/rajesh-samysundaram

Professional Summary

Frontend Developer with **3+ years of professional experience** developing responsive, production-ready web applications using **React.js, Next.js, TypeScript, and JavaScript (ES6+)**. Experienced in building reusable UI components, translating Figma designs into responsive interfaces, integrating REST APIs and third-party services, and developing data-driven application workflows. Worked on enterprise management, e-commerce, retail operations, and environmental monitoring applications. Knowledge of frontend performance optimization, component architecture, UI state management, cross-browser compatibility, debugging, and Agile/Scrum development.

Technical Skills

- **Frontend Development:** React.js, Next.js, React Native, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS.
- **UI Development:** Responsive Web Design, Figma-to-Code, Reusable Components, Component Architecture, UI State Management, Form Handling, Cross-Browser Compatibility.
- **Performance Optimization:** Code Splitting, Lazy Loading, Dynamic Imports, Image Optimization, WebP, Chrome DevTools.
- **API Integration:** REST APIs, Zoho Books API, WhatsApp Business API, Slack API, Firebase Cloud Messaging, Agora SDK.
- **Backend and Databases:** Node.js, Express.js, Supabase, PostgreSQL, MongoDB, MySQL.
- **Tools and Methodologies:** Git, GitHub, Postman, VS Code, API Testing, Debugging, Agile/Scrum, Sprint Planning, Code Reviews, Cross-Functional Collaboration.
- **Other Technologies:** WordPress, Magento 2.

Professional Experience

Thidiff Technology — Bengaluru, India
Frontend Developer — Jan 2023 – Jul 2026

- Developed and maintained responsive web applications using React.js, Next.js, TypeScript, JavaScript, and Tailwind CSS.
- Translated Figma designs into reusable UI components, maintaining consistent layouts across desktop, tablet, and mobile devices.
- Developed frontend features for enterprise management, e-commerce, inventory, order management, and environmental monitoring applications.
- Integrated REST APIs and third-party services, including Zoho Books, WhatsApp Business, Slack, Firebase, and Agora SDK, supporting business workflows, notifications, and communication features.
- Applied frontend performance optimization techniques using code splitting, dynamic imports, lazy loading, and optimized image assets.
- Developed React Native interfaces for mobile applications involving monitoring, notifications, and voice-calling functionality.
- Collaborated with UI/UX designers, backend developers, QA engineers, and product teams to implement features, troubleshoot issues, and support application delivery.
- Participated in Agile/Scrum activities, including daily stand-ups, sprint planning, code reviews, testing, debugging, and API troubleshooting using Git, Postman, and Chrome DevTools.

Key Projects

Nexreon – Internal Enterprise Management Platform
Technologies: React.js, React Native, Node.js, Firebase, Agora SDK

- Developed frontend screens for project management, tickets, attendance, and internal business workflows.
- Implemented role-based UI views, dashboard components, notification interfaces, and voice-calling UI with call-state handling in the React Native application.

Zunomart – Multi-Store Retail Commerce Platform
Technologies: React.js, Node.js, Firebase, Slack API, Zoho API, WhatsApp Business API

- Developed dashboard interfaces for inventory, order tracking, replenishment, and multi-store operations.
- Built reusable UI components and integrated third-party services to support notifications, retail workflows, and business operations.

WQ DataLive – Real-Time Water Quality Monitoring System
Technologies: React Native, Node.js, REST APIs

- Developed mobile interfaces for remote water-quality monitoring, including telemetry data, device information, monitoring status, and threshold alerts.
- Integrated REST APIs to retrieve and display monitoring information through data-driven mobile screens.

NexSens – Environmental Monitoring Web Platform
Technologies: React.js, Next.js, JavaScript, TypeScript, REST APIs, HTML5, CSS3

- Developed responsive frontend interfaces and reusable components for dashboards, data visualization, monitoring screens, tables, and user interaction workflows.
- Integrated REST APIs to display environmental monitoring data and implemented responsive layouts, form interactions, and UI state management.
- Collaborated with backend developers and UI/UX designers to implement features and troubleshoot frontend and API integration issues.

Certifications and Training

Software Testing (Manual and Automation) TestLeaf, Chennai

- Training in Manual Testing, Selenium WebDriver, Java, TestNG, Automation Testing, Framework Design, and Real-Time Project Execution.

Education

Bachelor of Engineering (B.E.) in Agricultural Engineering 2017 – 2021
SNS College of Technology, Coimbatore, India
