

RAJESH S

Frontend Engineer | Full Stack Developer

srajeshs021@gmail.com | +91 97906 14060 | Bengaluru, India

Portfolio: rajeshs.com | LinkedIn: [Rajesh Samysundaram](#)

PROFESSIONAL SUMMARY

Results-oriented Frontend Engineer with 3+ years of experience specializing in React.js, Next.js, TypeScript, and Node.js. Proven track record in architecting scalable, high-performance web and mobile applications, converting complex Figma designs into pixel-perfect user interfaces, and integrating multi-platform APIs (Zoho, WhatsApp, Agora). Adept at frontend performance optimization, state management, real-time architectures, and Agile manual QA testing. Passionate about building production-grade SaaS platforms that elevate user experience and drive business outcomes.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, React Native, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS.
- **Backend & APIs:** Node.js, Express.js, RESTful APIs, Webhooks, WhatsApp Business API, Zoho Books API, Agora SDK.
- **Databases & Cloud:** Supabase (PostgreSQL), MongoDB, MySQL, Firebase (FCM).
- **Testing & QA:** Manual Testing, Test Case Execution, Defect Tracking, Regression Testing, Requirement Analysis.
- **Tools & Developer Ecosystem:** Git, Postman, Chrome DevTools, Slack, Agile/Scrum, Sprint Planning, WordPress, Magento 2.

WORK EXPERIENCE

Thidiff Technology

Bengaluru, India

React Developer / Full Stack Engineer

Jan 2023 – July 2026

- **Frontend Architecture & UI Performance:** Spearheaded frontend development across 3+ core web applications using **React.js, Next.js, and Tailwind CSS**, achieving 100% cross-browser responsiveness and pixel-perfect design alignment with Figma prototypes.
- **Performance Optimization:** Reduced initial web application load times by **40%** by implementing dynamic code-splitting, lazy loading, and WebP asset optimization.
- **API Integrations & Workflow Automation:** Built robust bi-directional integrations using **Zoho Books API** and **WhatsApp Business API** to automate invoice generation, vendor tracking, and employee alerts, accelerating internal financial workflows.
- **Real-time Notifications & Systems:** Integrated **Firebase Cloud Messaging (FCM)** and **Slack Webhooks** to power instant real-time alerts for sales transactions, operational tasks, and automated daily performance reports.
- **Mobile Voice Communication:** Implemented **Agora SDK** inside a React Native mobile application, enabling real-time voice call functionality complete with token handling, background processes, and dynamic permissions.
- **Quality Assurance & Testing:** Executed end-to-end manual QA processes—authoring comprehensive test plans and scenarios, running regression testing, and identifying critical defects to ensure zero-regression releases.
- **Agile Collaboration:** Participated actively in daily standups, sprint planning, and reviews, collaborating cross-functionally with UI/UX designers, backend developers, and product managers.

KEY PROJECTS

Nexreon — Internal Enterprise Management Platform

2023 – 2026

- **Technologies:** React.js, React Native, Node.js, Firebase, Agora SDK.
- Engineered an enterprise project, ticket, and attendance management tool providing role-based access control and real-time sprint status tracking.
- Embedded in-app real-time voice calling and activity notifications, raising cross-departmental collaboration efficiency across internal teams.

NexReon – Zunomart — Multi-Store Retail Commerce Platform

2023 – 2026

- **Technologies:** React.js, Node.js, Firebase, Agora Voice Call, Slack API, Zoho API, WhatsApp API.
- Developed a central dashboard to handle store inventories, order tracking, replenishment workflows, and multi-store analytical reports.
- Streamlined real-time operational alerts by integrating Slack, Zoho, and WhatsApp automation channels.

WQ DataLive — Real-Time Water Quality Monitoring System

2023 – 2024

- **Technologies:** React Native, Node.js, REST APIs.
- Developed a remote monitoring mobile application providing live visual telemetry, automated threshold alerts, and compliance reporting for environmental datasets.
- Implemented real-time continuous data ingestion to facilitate early contamination detection and rapid system diagnostics.

CERTIFICATIONS & TRAINING

Software Testing (Manual & Automation)

TestLeaf, Chennai

- Hands-on expertise in Manual Testing, Selenium WebDriver, Java, TestNG, Framework Design, and Real-Time Project Execution.

EDUCATION

Bachelor of Engineering (B.E.) in Agricultural Engineering

2017 – 2021

SNS College of Technology, Coimbatore
